

My name is Clyde King; I am originally from Barbados and now live in Dorchester I was a former employee of Carney Hospital, left and came back in 2003 and have been there since.

We are good at what we do: Providing exceptional care to our patients.

I have been very pleased to be part of the mission of Carney Hospital to serve our patient with respect and compassion.

I was very excited when I left the first employee town meeting, when it was explained to us for the first time what that deal meant to us and to the hospital, and it was reassuring than and now to know that our job is secure and our pension will be fully funded.

I like knowing that Ceberus Management will fund the construction of a new Operating room and help improving the physical appearance of this old building.

As a resident of Dorchester this deal is the best thing that could happen to Carney and the Dorchester community. I support it all the way and urge you also, please, to do the same.

Thank you
